

rNature Anaerobic Digester ( Bio-Gas)  
from **Reddonatura**<sup>TM</sup>

## ABOUT

Reddonatura, One of the world's leading food waste solution providers. Our success is driven by our hopes of moving towards green renewable sustainable solutions for our every day. And that begins with an environmentally sound solution to transform waste into something useful focused on supporting clients as they deal with the environmental challenges of today and prepare for what's coming tomorrow.

We at Reddonatura brings you "The Green Machines"

1. rNATURE Fully Automatic CE Certified Food Waste Digester Machines catering B2B Segments ranging from 25kg – 10000kg of food waste disposal"

2. rNature Anaerobic Digester ( Bio-Gas) - Digesting the food waste to generate methane gas from the food waste. This gas further is used for cooking purposes in the kitchen or can be used in a generator to generate electrical power. Thus rendering a smooth transition on the journey from "Garbage to Green"

## BIO GAS PLANT INSTALLATIONS

### Fixed Dome

50 TPD Fruits & vegetables waste  
Bio gas Plant for boiler fuel

### CSTR-Fixed Dome

1 TPD food waste  
Bio gas Plant for cooking

### Geo Membrane type

100 KPD food waste bio gas for cooking

### Automated Containerized

60 Cu.m slaughter house, banana  
peduncle & paddy straw bio gas Plant for  
R&D

## VISION

Providing customized and sustainable energy solutions for converting organic wastes into heat and power generation plants to reduce fossil fuel dependency.

Creating an energy independent world.
